Alphabetical Lists of Ministers and Churches
January 1 - December 31, 1955

The General Assembly directed that the Statistical Reports, Roll of Churches, Roll of Ministers, etc., be printed in a separate volume and distributed as soon as possible, with the Minutes of the Assembly to be printed and distributed after the meeting of that body. The purpose of this recommendation is to make the statistics available several months earlier than would be possible if they are held until the proceedings of the Assembly are distributed. STATISTICAL REPORTS FROM PRESBYTERIES

IMPORTANT

Every minister and licentiate should notify the Stated Clerk of his presbytery at once of any change in his address or ecclesiastical status. The Stated Clerks of the presbyteries should transmit this information promptly to the Stated Clerk of the General Assembly.

Corrections for the lists of ministers and licentiates and the names of the churches should be sent directly to the Stated Clerk of the General Assembly. Ministers living in cities where there is free delivery and where mail is delivered at the home should always give their street address.

The names of ministers in parentheses indicate that these men are not members of the presbyteries where listed but that they are serving these churches as Pastors-Elect or as Supplies. In the former cases they are in process of being received or ordained. In the latter they will continue to hold their membership in different presbyteries.

INDEX OF CHURCHES

The General Assembly of 1930 directed that the Alphabetical List of Churches be printed in the Minutes (see page 80 of 1930 Minutes).

EXPLANATORY NOTE

Churches are indexed both by name and by postoffice except for churches in cities. These will be found only under the name of the city.

Where the name of the church appears first, it is followed by the designation "Ch." or "Chapel."

It has been impossible to secure complete information as to churches which are "R. F. D." Therefore, it is certain that some churches listed under the names of small towns are located in the country.

This index is as accurate as it could be made by comparing the reports of the presbyteries with the reports from the individual churches. Where any discrepancy occurred as to postoffice, the report of the latter is used. In some instances, therefore, this index will vary as to postoffice from the statistical tables printed in the Minutes.

The date opposite a church indicates year of organization.

The presbytery is used instead of page number. For the convenience of those who are not familiar with the presbyteries, an alphabetical index, with page number for each presbytery is given below:
